Exchange of Christmas Greetings via [REDACTED] Communications Facilities

25X1A7b

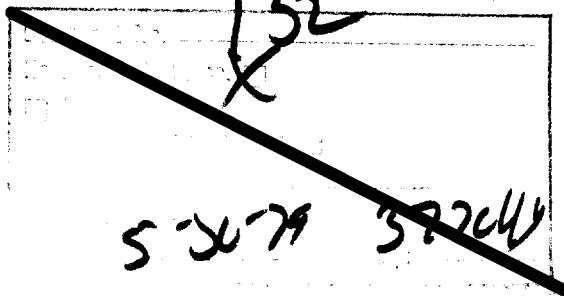

Last year I dispatched a letter to the [REDACTED] discouraging the use of our communications facilities for the exchange of semi-official Christmas and New Year greetings. As most of you know, since that time communications without cost to [REDACTED] have been arranged and the Department of Defense is not as economy-minded as they were this time last year. Accordingly I do not think that there is a very great risk involved in using these facilities for the exchange of semi-official greetings this year.
